Corona

Corona

CORONA is original bedroom set with wonderful bed and soft cushioned headboard, delicately marked by decorative needlework. Classical white and contemporary antique wood decor are in fine combination and distribution on the different details from the furniture of this set. The functional wardrobe sliding doors are amended with mirrors, fixed on an innovative construction giving additional design accent. The original vision is cleverly combined with the standard functions of classy and outstanding bedroom furniture.

- 1 Wardrobe L180/ B64/ H215 - 1 pc.

Splendid

Splendid

SPLENDID is a bedroom set, in the moods and traditions of the 70's. The headboard of the bed is quite impressive in design and construction. The new design of used and painted wood is combined with the noble Wenge in characteristic and deliberate plasticity. Original decorative element is inlaid in the different furniture from the set. With stylish and unique vision, this is a prestigious and impressive bedroom set, matching functionality with beautiful bedroom furniture.

Some hints to consider when choosing bedroom furniture:

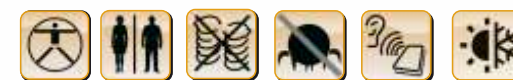

- **Boards** – with low content of formaldehyde (class E1) according to EU norms.
High quality of wood structure. Actual design and decors. Not all boards cover these characteristics. Guaranteed by the producer!
- **Surface** – natural when touched and robust! Guaranteed by the producer!
- **Edges** – ABS (class E1) according to EU norms. PVC edge is banned in EU, due to poisonous vapor when burned. Furniture MOB is only with ABS edge!
- **Fittings** – Usually low quality furniture is assembled with screws, which remain visible and stay ugly when covered with plastic. MINI-FIX connector is the quality standard in MOB!
- **Shelves and shelf supports** – shelves from 18mm for more load bearing, shelf supports from metal in so called “integrated type” - for more weight”!
- **Sliding doors** – quality mechanism, guarantees long life and easy of use - guaranteed by the producer. Doors with aluminum handles will not bend over time!
- **Hinges** – wardrobes with height above 1,90 m is better to have 4 hinges per wing and not 3 - quantity is important, the producer also!
- **Bed** – proper construction guarantees longer life! The mattress is also important!

mattress
MOB

5 years warranty

Mattress **MOB** is with core from polymer foam which is with high density and open micro-cell structure - this allows the air to flow through and prevents growth of bacteria and spores. The core elasticity gives the mattress a moderate hardness. In this way it supports the body in normal condition, allowing the spine to be in natural position when sleeping.

The changeable slip-cover is from fabric quilt with anti-allergic batting from silicon fibers and non-knitted textile. The coating is two sided: summer side - cotton fabric; and winter side from woolen fabric. The slip-cover can be zip opened, allowing easy and effortless multiple detachment for cleaning or washing. This makes the model suitable for people with asthma and allergies.
